Congress has passed, over the President's vetoes, the bills for the Improvement of the St. Clair Flats, and St. Mary's and Mississippi Rivers, and they are now laws.

Col. Farmont has signified his acceptance of the Republican nomination for President, and his Official Report on the Kansas Outadhesion to the Republic in Platform, in a modest and manly letter. Our Washington correspondent writes ele-

quently and confidently of the prospects of the approaching campaign. Private advices are ver more encouraging.

If we could be susprised at any extreme of outrage, or tyranny, from the present Border Ruth in Administration, this last high-handed as t might well astound us. But it is, in truth, only following out the programme marked out at the flent inception of the Kansas-Nebraska iniquity. It is but part the Kansas-Nebraska iniquity. It is but part contesting Delegate, Andrew II Reeder, claims and parcel of the game to force Slaveey into his seal, was not bold in pursuance of law, and Kansas at all bazards and in violation of every faw, human or divine. The People of Walwortl. County met in Mass Convention at Elkhorn on the 4th instant to ratity the nominations of Fremont and Dayton. Upwards of two thousand freemen were in attendance and the proceedings were of the most spirited character. W. A. BARTLETT presided; Judge Brooker reported a series of excellent resolutions which were adopted by acclamation; a numher of capital speeches were made; and many valuable recenits were enlisted for the Cause of Freedom. Among those in attendance, heretofore Democrats, who declared for Farwont, were EDWARD ELDEREIN, of Elkhorn, Capt. WHEELFR, J. L. Fourest and Mr. Bett, of Sagar Creek .-The meeting in all respects was a noble one .-Walworth County is thoroughly reused to the importance of the coming struggle and will give a larger majority for FREMOST and FREEDOM than

THE REPOBLICAN PARCY IN BALTIMORE,-In the National Republican Convention, which recently met in Philadelphia, there was a delegation representing the State of Maryland, and one of them, named Jacob Fassel, asserted that a Republican paper was published in Baltimore and that the editor of it claimed two thousand votes for the party in that city.

This attracted the notice of the Boltimore Patriot, which repeated the assertion, and asked for information what paper Mr. Pussel referred to. Mr. Fussel has promptly responded in a letter, bearing his signature, saying that he alluded to the Wecker, a German newspaper, published in Baltimore, which has long since hoisted the Republican flag. And Mr. F. adda, under date of the 21th, speaking of the editor, 'I saw him to-day, and he reiterated that among his readers

he claimed 2000 for the Republican ticket." August Becker, the editor in question, also writes to the Patriot, and avows that he had made to Mr. Fabsel the statement repeated by that gentleman in the convention, and that it is true. He says that he had always written against the extension of slavery, as his antecessor, the late Cu. H. H. Schnaufter, had done.

A DAILY AT APPLETON .- We are in receipt of

Hiver and Marbor Hill. The Senate of the United States has passed the

bills for the improvement of the St. Clair Flats and St. Mary's river, by the constitutional majority of two-thirds. The Senste is democratic, and RUPUS KING & WM. H. WATSON, legislates for the people. News of gesterday. Afair specimen of the Senate's "democratic" legislation is to be found in the Kaness bill which ? that body has just passed. It professes to leave to the people of Kansas the choice of their own aws and institutions, but in order to multiply the chances for making it a Slave State, this bill, passed by a "democratic" Senate, di-franchises all foreign-born inhabitants who have not been five years in the country and got out their naturalization papers. The original Kansas Nebraska invoked. bill, like our own Constitution, gave the right

of suffrage to all foreigners who had declared their intentions to become citizens. But the 'democratic" Senate, in obedience to the deright and disfranchised hundreds and thousands mished solely because they desired to make it a Free State. This is the way our Democratic Senate "legislates for the people."

WASHINGTON, July 5. Absouce and subsequent sickness have caused an intermission of my correspondence, which I now resume with increased hopes, and still stronger determination to give a helping hand-be it ever so weak -- to the cause of Freedom and the overthrow of its tyrannical invaders.

Since the date of my last letter to the Sentinel, the Conventions of the two great parties of the country have selected their candidates for the coming Presidential Campaign, and have put forth declarations of principles, in behalf of which and approval and support of the people is

Between these candidates and their platforms upon which, and by which they are pledged to stand or fall, a choice must be made; and upon the result of that choice how much of the future mands of the South, have now taken away that of this Union must depend! No greater contrast can well be presented. The Cincinnati of German, Irish and other emigrants, who had Convention the forced by the unmistukeable sought new homes in Kansas and who are thus indications of public opinion to throw aside, as fit for no further use, such tools as Pierce and Douglass, only that another quite as supple and abject, out less positively obnoxious, might be selected-was controlled throughout by the ultra A friend in the interior of our State, who has pro Slavery heresics of the South, which has now entire possession of the so-called Democratic party. The extension of Slavery, alike in our own, as in foreign Territory, which it is hoped to make our own, is now the cardinal principle! of what claims to be the Democratic platform; and in fit juxtaposition comes the endorsement of the atrocious highwayman, Ostend Circular, as well able to head it. "Free Speech, Free Press, Free as filibusterism in general, save only where sucmont" is a notto which you can daily hear in cass might enure to the benefit of free insti-

To doubt this result would be to despair of the further con tinuance of the Union-for what union could stand such a revelation as that just made by the Kansas Investigating Committee? Let the people read that report, and then say if the one tenth had been told of the outrages, fraud, violonce, perjury, and murder which have descrated the fair soil of the new Territory-and in support the people of the Territory preliminary to the formation of the State Government, have been as regular as the disturbed condition of the Territory would allow; and that the Constitution passed by the Convention, held in pursuance of said elections, embodied as the will of a majority of the manule. So too of the contest in the House upon the bill to admit Kansan as a Free State with the To peka constitution, which, after a warm contest was lost by a single vote—to be reconsidered and assed by a majority of two.

The onus is thus put upon the Senate, to receive or reject this youngest sister of the Confedracy-with an ultimate appeal to the people who n November next, will proclaim their approval of this decision of their immediate representatives. The People's House has pronounced for the free state of Kansas-and then adjourned in honor of that other Declaration of Independence which a contrary decision would have shown to be a mockery and a delusion.

The report that was first poblished, that Gay was killed by the Indians, is utterly false. His deportment as agent was very acceptable to the Indians. Perfuce barmony existed between him and them. REWS OF FREHONT'S NOMINATION.

MURDERS-CROPS &C.

A citizen of Kansas who left Top-ka on the 3d A cidzen of Kansas who left Topeka on the 3d inst., and Leavenworth on the 4th, called on as yesterday. He says that the Free State Legislature was prevented from assembling on the 4th inst. pursuant to adjournment, by V. S. troops under Col. Sumner. He told the people that he had positive orders from President Pierce to arrest and break up the Legislature if the members attempted to convene, and that his orders must be enlared. He was also under orders from the Executive to disagree disagrance. from the Executive to disperse, distrint and arrest any gathering of Free State people that might assemble to elebrate the Fourch of July! He was at the head of 400 U.S. dragoons, and an equal number of infantry and artiflerists.

The result was that the members of the Fre State Legislature were unable to meet. It was decined best to succumb to the United States Army, postpone the assembling and await the verdict of the American people at the polls next November. Had the U.S. dragoons not inter-fered, the Free State men were resolved to hold their legislative meeting in spire of the Border Ruffians, and were prepared to give the villains

warm reception.

Our informant says that murders are still very frequent in the territory; that an officer under Summer told him that the dragoous had picked up and buried a great number within a few

ceks.

The bodies of thirty-two murdered men were found on the roads, several of whom were par-tially devoured by the wolves. It is some satis-faction to learn, however, that they were not all Free State men who had thus fallen; but that many plundering ruffians had been made to bite the dust for their crimes.

He tells us that the wheat harvested is excelent, though not very large in quantity, in consciouse of the disturbed state of the territory; hal the corn crop looks most luxuriant, and will be abundant in some districts, if the people are permitted by the Ruffians to rather it. We further learn from him that the news of the nomination of Col. Fremont and a perusal of the Republican platform set the whole Free State

The Last Swindle. Judge Douglas is at work industriously plying the Auti-Nebraska members of the House with every possible argument, entreaty and appeal to induce them to go for bis bill just sent to them from the Senate—a bill which is ironically called from the Senate—a bill which is ironically called an act for the Pacification of Kansas. He pledges himself that the Board of Commissioners shall be composed of the best men of all parties, and that everything shall be done by them which fairness to both the contending parties in Kansas requires. But he has made no headway as yet, and it remains to be seen whether the Anti-Nebraska Congressmen of 1856 are as faithful to Freedom as their predecessors of 1854 were, when so many of them stood up, not only against arguments akin to this, but broke with the party that elected them, and risked defeat and the party that elected them, and risked defeat an ishonor at home rather than to yield to what heir judgment told them was wrong.

The declaration of principles embodied in the resolves of your conv. nition, expressed the doruines in which I have been educated, and which have been ripened into conviction by personal observations and experience. With this declaration and uyowal, I think it necessary to revert to only two of the subjects embraced in the resolutions, and to those only, because events have surrounded them with gave and critical circumstances, and given to them special importance. He then gives his concurrence in the views of the convention deprecating the foreign policy to which it adverts, and advocates an open and firm policy in our relations, and in regard to therety, goes strongly for the admission of Kanssas as a free State, and thereby checking the aims of the South, for securing the unlimited extension of the institution over this continent. He concludes as follows: "Trusting that I have a heart capable of comprehencing our whole country with as industry masting that I may a relate with its varied interests, and confident that patriotism exists in all parts of the Union, I accept of the nomination of your convention, in the hope, that I may be able to serve usefully in its cause, which I consider the cause of constitutional

Senate.—On motion of Mr. Benjumin, resolutions were adopted directing the Secretary of the Senate to take the three bills passed over the Presidents veto to the Secretary of State in order that they may be deposited in that department. Mr. Benjamin remarked in reference to the question raised the other day whether two thirds of the members present, or two thirds of all the members of the Senate, were required to pass a bill over the President's veto, that he had examined precedents, found that the session of

Messra. Toucey and Mason expressed the epinion after more deliberate reflection, that the decision of the chair was correct. inion after more deliberate reflection, that the decision of the chair was correct.

Mr. Toomba said the precedents were not worth much. When they were in a person's favor they were relied on, but when they were contrary to his opinion they were disregarded.

House.—Mr. Gragin, of N. H., from the joint committee on printing, submitted a resolution to print 100,000 of the majority and minority resolutions of the select committee amounted to inintions of the select committee appointed to investigate the assault on Mr. Summer by Brooks at a cost of 9 cents per copy. Mr. Smead unsuccessfully moved to lay on the teble. On motion of Mr. Cobb, of Ga., the number was reduced to 10,000, and the resolution thus modified reasonable.

FREE STATE LEGISLATURE! Pierce vs. Popular Sovereigniy!! St. Louis, July 9.

Advices from Topeka to the 4th inst are r ceived. Convention met the on the 2nd --Passed recolutions in favor of the Republican party—demunciatory of the democracy, and ap-

party—denunciatory of the democracy, and ap-pealing to friends of Free Kansas in Congress to pealing to friends of Free Annas in Congress to stop supplies, until Kansas is admitted under present Constitution.

Marshal Donaldson and Judge Elmore read to Marshai Donaidson and Judge Elmore read to the Convention the President's February Procha-mation; Shannon's proclamation and also a note from Sumner, stating he would prevent themcet, ing of the Legislature; but they were not beeded. About eight hundred people were present, all

About eight hundred people were present, all armed.

Both branches of the Legislature met on the 4th. Quorum present, roll called.

About noon Summer entered town with 200 dragoons, and planted two pieces of artillery at the head of Kansas Avenue. Troops were drawn up before Constitutional Hall, and Sumner told the citizens he would not disarrathem, or break up the Convention, but had orders to dissolve the negislature and would do so.

Summer then repaired to the hall of representatives and in a conflorant nanural informed.

Summer then repaired to the hall of represen-tatives and in a gentlemanly manner informed the members he had orders to disperse them and that he should enforce it; he said: "I am called upon to perform the most painful duty of my life, under authority of the President's pro-clamation. I am here to dissolve this legislature, and in accordance with my orders command you parts of the city, will be sold by the subscribers, on the forms than by any other parties in Town, as we are only persons in the place who purchased directly in Government. Judge Schuyler asked if they were driven ont at
the point of the boyonet. Summer replied: "I
will use the whole force under my command to

enforce my orders."

The House then dispersed. A similar scene was enacted in the Senate, and it also dispersed. The Convention was preparing resolutions en-lorsing State Government and Topeka Conven-ion. Fears of invasion had kept large mini-

ers from attending the Convention.

Congressionel.

Washington, July 9-6 P. V. Senate still in session on a proposition to print 20,000 copies of the Kansas bill. A spirited de-bate is going on, involving Slavery and kindred mestions. Mr. Johnson, from the committee on printing. reported in favor of the motion to print 20,000 copies of the Kansas bill, as passed by the Senate, out adversely to the motion to print the amendments proposed, and the ayes and noss thereon.

Mr. Trumbull thought if the Senate was going to send this forth as an electioneering document.

he action taken on the various amendments ought to go with it.

Mr. Weller wished the report of the committee oncurred in.

Mr. Wilson was willing to send to the country as many copies of the bill as the majority desired. He regarded the bill as intended to carry on the work which the Border Ruffans of Missouri commenced in 1855. The people of the country so understood it. Why was not this bill brought in the earliest part of the session, before Kaness was conquered. Since that time Kaness has been twice or three times invaded. Houses

have been burned, and some Free State men-killed, while others bave been driven out of the Territory.

During the debate, Gov. Rigier in reply to ol-lusionaria regard to Mr. Buchanan's political orthodoxy, denied that he ever said it there was a particle of democratic blood in his veins he would let it out; if he had tried he would have bled to death, for he was a democrat all over. Mr. Bigler insisted that Mr. Wilson reisrepresented the Kansas Bill, which warranted no conclusion that it intended making Kansas a Slave State.

Still in assetion.

Dyrnam, July 9th. The Republican Convention at Mataball yes terday, re-nominated Kinsley S. Bingham for Go vernor, and all present State officers. Presidential Electors also nominated. NEW YORK MARKETS. New Yore, July 9.
